

Fixed Income Associate Rotational Program

Job Description

Our Associate Rotational Program will hire graduating seniors to work in our New York City office. The Associate hired into Fixed Income will participate in four 6-month rotations over a two-year period: Each rotation will require you to learn a new skill-set and knowledge base and/or complete a project that is critical to AllianceBernstein's ongoing success.

Job Qualifications

Candidates should be top academic performers, be interested in the investment management industry and meet the following criteria:

- May 2013 Bachelor's degree candidates in business, finance, economics, math, computer science, engineering, or liberal arts
- Cumulative GPA of 3.3 or better
- Candidates must be able to work in the U.S. without visa sponsorship (now or in the future)
- Strong analytical and problem-solving skills
- Excellent verbal and written communication skills, and the ability to collaborate with others as part of a team
- Detail-oriented, ability to multitask and work in a fast-paced environment

Upon successful completion of this program, Associates will review available career paths with program leaders to determine their next opportunity (based on the firm's needs and the Associates' interests).

Fixed Income Rotations

Portfolio Management – the role exposes the Associate to the overall investment process and allows the Associate to experience how both quantitative and fundamental research is used in the context of managing both constrained and unconstrained Fixed Income portfolios.

Repo Finance/Securities Lending - introduces the Associate to all aspects of the Security Finance business, which encompasses both the Repo and Securities Lending. Associates will deal across multiple asset classes and will work closely with members from Portfolio Management and Trading.

Commercial Real Estate Research - Associate assists our Commercial Mortgage Backed Securities ("CMBS") investment team with surveillance of the CMBS portfolios, including identifying securities of concern, updating ratings, and assessing relative value within portfolios.

Fundamental Credit Research - Associate supports senior analysts with fundamental and relative value analysis of High Yield, Investment Grade and Emerging Market credits. The goal is to develop a skill set which can permit the individual to gain meaningful insight into the career of a senior credit analyst.

Economic Research – exposes the Associate to the Global Economics Team's research process. The Associate works with senior economists helping to produce reports on various macroeconomic topics that are relevant to the investment process.

Fixed Income Quantitative Research/Risk Management Rotation – the associate gains exposure to both quantitative research and risk management. Assignments provide the opportunity to experience a broad range of fixed income asset classes.

How to Apply

Please submit your resume and cover letter to AB Careers at www.alliancebernstein.com/careers to Job Number 5058.
